**Your first and only
choice for full-fledged
services in Ukraine.**

www.tangiersinternational.com

Your trusted partner in **Ukraine** for Operational set-up, and Security and Medical Assistance.

Established and operational in Ukraine well before the current conflict, Tangiers International offers a comprehensive range of services tailored to Contractors.

As a one-stop solution, we support everything from setting up operations, local networking, to ongoing risk management, including medical emergency assistance, evacuations, and claims handling.

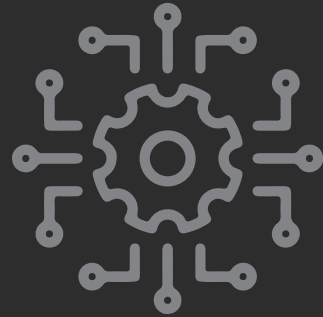

Why Choose Tangiers International in Ukraine?

Experience and Expertise

- **Established Since 2006:** Tangiers International has a proven track record of delivering medical support and evacuations globally, with operations spanning over 110 countries.
- **Fully Operational in Ukraine Since January 2022:** Among the first companies on the ground, we have been providing emergency assistance, medical support, and medical evacuations since the onset of the conflict.
- **Established Networks in Ukraine:** Our strong in-country connections guarantee seamless support for both commercial and operational matters, including set up, logistics, translations, security, due diligence and beyond.
- **Proven Track Record in wartime Ukraine:** Operational and logistics support for the setup and running of MOAS Ukraine, one of the largest NGOs operating in the territory since February 2022.
- **Global Expertise in Conflict Zones:** With extensive experience in Afghanistan, Iraq, and other conflict areas, we ensure the highest standard of arrangement of care and support for injured workers, handling LongShore/DBA claims and providing assistance to contractors, insurers, and other public and private entities.

Unmatched Services

- **Cashless Medical Network:** Guaranteed service and DBA-compliant reporting with access to local hospitals and medical providers.
- **Medical Evacuations:** Utilizing our own vehicles and personnel, coordinating with local and international medical facilities.
- **Full DBA/Longshore Medical Case Management:** Comprehensive management of Defense Base Act claims, providing ongoing support until return to work.
- **Full Translation Services:** Professional translation for medical and operational needs, ensuring clear communication.
- **On-the-Ground Support:** Assistance with commercial and operational matters, leveraging local expertise to navigate the Ukrainian landscape.

A Proven Track Record

2006: Tangiers International Founded

2007: Established operations in Iraq, starting with a medical network of local hospitals in Erbil, Iraqi Kurdistan. Provided medical emergency assistance, evacuations, and ongoing care for injured US contractors.

2009: Expanded operations to Afghanistan and over 110 countries, managing complex liability, workers' compensation, major medical, and Defense Base Act claims.

2010: NGO MOAS Founded. Leveraged Tangiers' global experience in medical evacuation management and related services, especially in conflict zones, MOAS as Tangiers CSR to give back to the global community by providing support through its expertise of medical relief, security and search & rescue expertise to the most vulnerable. Saved over 35,000 persons in the Med, with other ops in Bangladesh and Malta.

2022: Tangiers in Ukraine. Monitoring events closely, we were fully prepared and assisted international companies and organizations with advanced security and medical needs, becoming a leader in emergency assistance, medical support, and evacuations since the start of the war.

2022 – 2024 – Tangiers formed the operational backbone for the establishment of MOAS operations in Ukraine, assisting with the ground evacuation of over 45,000 men and women over the course of 26 months.

2024: Established One Stop Solution in Ukraine to provide practical solutions in the setting up of operations in Ukraine, to providing ongoing Risk management support with medical emergency assistance, medical evacuations and medical claims handling
